

Hockey Sample Plays

PP Through Box Onetimer

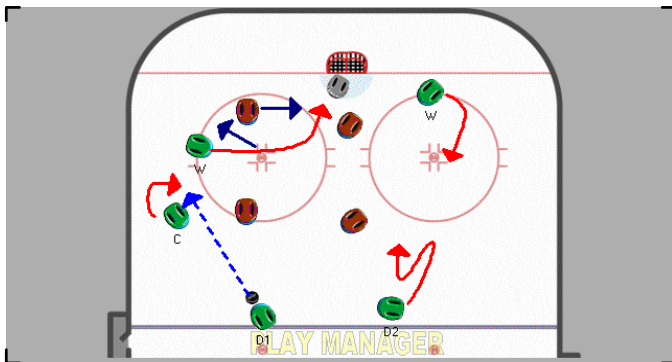

Colorado scored against Vancouver using this play.

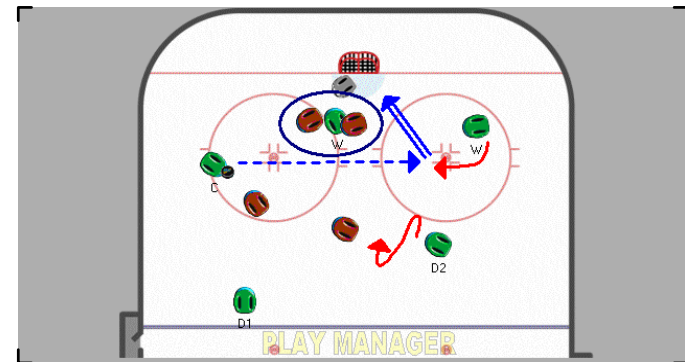

5 players set up on the outside. C moves the puck down to the low W to pull the box in that direction.

W passes puck to C, who passes it to D1. W starts low movement to the slot and then towards the defending low D.

Near W moves from the corner towards the slot, then to the defending D at the net. Blocking the stick and path of the defending D allows the cross box pass to the shooting W for a "one timer".

C passes through the box to far W who has a one-timer at the net.
